

Bathroom bliss

This spacious but dated bathroom was given a new lease on life, thanks to CTM.

Nothing soothes the soul better than a long hot bath in winter. And doing that in style and comfort adds to the bliss. This bathroom was stuck in the '70s and needed a serious makeover to bring it into the new millennium.

The revamp

This spacious bathroom has length, but needed width for real comfort. Then large format tiles placed on both the walls and floors also created a cleaner form. The neutral tiles were retained, with various neutral shades adding depth and definition. The new bath fitted perfectly into the space, its curved side echoing the lines of the modern basins and fittings.

The mahogany vanities and cupboards provide ample storage and complement the outdoor shower column with Rhodesian teak decking, an added feature that is also very easy to install.

The update has ensured that this effortlessly stylish bathroom is now an asset to the home.
